The following information is provided so that you will have a successful exam session.

1. ID must include one: photo ID, original Social Security card or original/notarized Birth certificate. Another form of ID will be accepted for the second. There must be two forms total. In the case of children, some other forms can be accepted in place of the SS card and birth certificate.
2. Documentation presented must include the original and a photocopy. Typically these are a current license and CSCE's. CSCE's are valid for 365 days from date issued. Licensed amateurs desiring to upgrade must use their FRN number on the application instead of the Social Security number. Most licenses show the FRN number.
3. The VE team will supply all forms, scrap paper, pencils and pens. Applicants should supply their own calculator. No PDA's are permitted.
4. The fee is \$15.
5. If special testing circumstances are requested (test read to applicant for example) this must be arranged before the day of the test.
6. All questions should be addressed to the VE Liaison listed on the ARRL- VEC website for the LFCARC VE team, not the ARRL. The VE team cannot take your word for any third party arrangements with the ARRL.
7. All applicants are responsible for checking the completeness and correct information and spelling on their copy of forms issued as result of testing.

If you have questions concerning testing or you need to arrange for special circumstances please email our [VE Testing Coordinator](#) Allan Sellers - KB8JLG
